Design an “Alphabet Soup” poster –
During the New Deal, Franklin Roosevelt and the Congress established many programs to help Americans and get the US out of the Great Depression. Use the area below to design a poster/handbill for one of the Alphabet Soup programs. Be sure to include the initials of the program, along with symbols showing what the program was designed to do. Be creative, neat, and use color in your poster.
Write a paragraph explaining your poster. Be sure to tell what the agency did, and point out the symbols, colors, and figures that you used to communicate this idea.
